. 130 6.00 Hogs-Receipts, 8,000; shipments, 3,000. The arketing of hogs thus far this week shows a crease of over 2,000 compared with the same me last week and 8,500 compared with the cor-sponding time a year ago. The receipts to-ty were 1,000 larger than a week ago, but over

a very fair average for this time in the week, and the quality was again very satisfactory. The receipts were hardly as liberal as might have been expected, but, owing to the short supply yesterday leaving an unfilled demand, the market this morning opened with a good request from all buyers, and the bidding was higher. The inquiry was principally for the heavy hogs, and from the start they sold at about loc advance. Medium weights and good mixed hogs, however, were not favored as much and were probably not to exceed to higher in most cases. robably not to exceed 5c higher in most cases There was a continued discrimination against ight hogs, and it was rarely that they sold at any better figures than yesterday. In most ease dealers reported the market only steady for light hogs. As long as the shippers were in the market all buyers bought rather freely, but it was evident that packers were following the ad vance under protest, and as soon as important orders had been executed the market lost considerable of the opening activity. Several loads came in late, and, with buyers offering very little or no better prices than yesterday, a good many hogs remain in the pens unsold. The clos-ing market, therefore, was very weak and indicates that buyers do not intend to load up at ad vanced prices. Sales ranged from \$5.90 to \$6.70 and the bulk of the supply sold at \$6.10@6.50 Good to choice medium to heavy...... Mixed and heavy packing.

The receipts to-day were larger than for several days past, 500 larger than a week ago and a little smaller than a year ago. The quality represented is fully as good as the average recently, and, with the supply large enough to invite competition from all buyers, the market was reasonably active and at least steady prices were secured in all instances. Lambs sold as high as \$5.25, several bunches brought \$5@5.10, and other sales ranged from \$4 to \$4.75. Choice yearling sheep sold as high as \$4, but the top, aside from that, was \$3.40, and other sales ranged from \$2 to \$3.25. A good clearance was made in good season and the market closed steady. The at-tendance of buyers continues small. Their requirements are unimportant, and the auctions continue to be characterized by sluggish bidding and an inclination to press values to a lower level. It was more or less difficult to consum-mate sales to-day, and finally the supply had to be sold at less satisfactory figures than a week pany. Stocks of other companies with light business until arter the holidays. Considerable interest is being manifested in the special sales which will occur next month, and it is generally believed the trade will show a marked improvement by that time. Most of the horses here to-day were the kind that sell from \$75 to \$125 per head.

#### RECESSION AT THE CLOSE

STOCK MARKET IS A REPETITION OF THAT OF TUESDAY.

Early Strength Less Under Pressure from the Money Kings-Monetary Conditions Are Better.

NEW YORK, Dec. 17 .- The movement of prices in to-day's stock market was an almost exact repetition of that of yesterday. There was the same broadening show of strength up to the last hour, when a selling movement developed, which wiped out practically all of the earlier gains and carried some prices below last night. The reaction to-day was rather more gradual and not quite so severe as yesterday, and was followed by a steadler tone just before the close. There is no reason to doubt that the late selling movement today came from the same sources, and with the same object as that of yesterday; that is to say, from sources in touch with the bankers' money pool, and with the object of discouraging any indulgence in specu-

The sharpness and suddenness of last night's decline led to the supposition in some quarters that it was due to some coming bad news regarding the Venezuelan situation. To-day's decline had no such suspicions to account for it. The early strength in the market was due in no small part to the relief felt over the failure of yesterday's sinister rumors to materialize. The facts developed over night regarding the Venezuelan situation, although containing some unfavorable features, were so much less threatening than had been feared, that speculative sentiment showed encouragement and a disposition to buy stocks was manifested on that score. A number of special influences also helped the show of strength. The passage of the Pennsylvania tunnel franchise by the New York Board of Aldermen helped the stock of that company and its subsidiary comterminals on the New Jersey shore of the Hudson were also affected. Sugar continued to reflect the hope of benefit from the Cuban reciprocity treaty. The purchase by the United States Steel Corporation of the Union Steel Company was re-ceived at first with mixed emotions, owing to the prospect of a large bond issue against the purchase, but the steel shares subsequently became prominent factors in the advance. Reports from Philadelphia of a coming gas, electric and traction merther large syndicate requirements.

ger, had a rather disturbing influence, as does every development threatening fur-The money market contined to show the sentimental effect of the formation of the bankers' \$50,000,000 protective pool. The subtreasury drain on the market is greatly relaxed owing to heavy pension payments and the practical cessation of de-posits for transfer to the interior. The banks gained from the subtreasury on yesterday's operations \$324,000, reducing their loss since Friday to \$265,000. To-day's small transfer of \$50,000 to New Orleans was the first made through the subtreasury for the past eight business days. It is also reported that heavy receipts have been goined by the banks during the last few days on the regular express movement from the interior. Sterling ex-change receded further, to-day, in spite of grain clearances.

BREAK IN DECEMBER CORN

MORE THAN FIVE CENTS LOPPED FROM TUESDAY'S PRICES.

Other Options and Markets but Littl Affected-May Corn and Wheat Are Fractionally Higher.

CHICAGO, Dec. 17 .- Bulls and bears of the Chicago Board of Trade had a sharp and decisive struggle over December corn to-day. W. W. McCleary & Co. failed to respond to margin calls and the so-called blind pool headed by Thomas A. Cleage, of St. Louis, suffered a severe set-back. December corn receded almost 6 cents during | Telephone New 3698. the day and showed a break of about 11 cents since earlier in the month. Mr. Mc-Cleary declared that he would pay dollar for dollar and that he probably will be ready for business to-morrow. He said his order to have all his trades closed was forced because of excessive calls on him for margins. Mr. McCleary is a brotherin-law of Mr. Cleage. Mr. Cleage's pool has about 8,000 members. He has been operating in St. Louis, Kansas City and Chicago, and at one time is said to have had as much as 11,000,000 bushels of corn in these three markets of which 4,000,000 bushels were in Chicago.

Day's Market in Detail.

CHICAGO, Dec. 17 .- The corn pit was the center of attraction to-day on the Board of Trade, the heavy liquidation of the December option causing a loss of 51/2c in that INDIANAPOLIS.-Commercial paper, 4@6 per cent.; time loans, 5@6 per cent. Wheat ruled dull and weak, the favorable weather throughout the Northwest causing longs to unload freely, and this, together with selling on short account, was the main factor in bringing on the easier feeling. The sharp break in December corn affected wheat, as did also the foreign news, which was a trifle bearish, the large stocks reported at Russian ports being taken as an indication that the government report of a large yield in that country was entirely correct. There was a little better demand toward the close, which was about steady, May being a shade higher at 774c, after selling between 76%@76%c and 77%c. December closed %c lower at 74%c. Clear-ances of wheat and flour were equal to 132,000 bu. Primary receipts were 662,000 bu, against 774,000 a year ago. Minneapolis and Duluth reported receipts of 252 cars, which, with local receipts of 58 cars, none of con-tract grade, made a total of 310 cars, against 693 last week and 530 a year ago. Oats were dull and featureless and the market was a little easier on realizing in May. A fair demand from commission houses helped to maintain prices and prevented any severe break. The cash situation was not as favorable as of late. May closed %c lower at 32%c, after ranging between 32%c and 32%c. Receipts were

Provisions were extremely dull. In spite of a strong hog market, prices declined throughout the day, and the close was at a lower level. January pork closed 10c lower at \$16.571/2, lard was a shade lower at \$9.70@ 9.701/2 and ribs were off 21/2c, closing at

Estimated receipts for to-morrow: Wheat. 45 cars; corn, 290 cars; oats, 195 cars; hogs, 37,000 head.
